FET ACADEMY: PROJECT IDEAS

In collaboration with

For what?

Supporting **researchers to work together in building high promising ideas for R&D projects within top emerging trends in technology** with great potential for social impact and R&I development.

These trends have been identified, studied, informed and prioritised through a combination of the most advanced data mining AI engines, human intelligence and crowd/expert perception.

If you want to learn more about the trends, click [here](#).

For whom?

Senior and young researchers in multidisciplinary areas such as new ways of Computing (i.e. neuromorphic computing), Artificial Intelligence, Life Sciences, Environmental Sciences, Biotechnology, Bionics, Advanced sensing and materials, Chemistry, Physics, Mathematics, 3D printing, Humanities, and Social Sciences.

It is also open to high-tech SMEs and people interested into prospective activities, creativity and ideation.

DATES AND TARGETED TRENDS:

DATE	TRENDS COVERED
15/9/2020	<ul style="list-style-type: none">• Ethically Trustworthy AI & Anonymous Analytics• Beyond 5G Hardware• New Approaches to Data Interoperability in IOT

How?

Using creativity techniques and usable tools for online collaboration. Planned agenda:

09:00 – 09:30	Welcome opening and presentation of participants
09:30 – 10:00	Trend(s) presentation by PREFET and invited researchers
10:00 – 11:30	Creativity Round 1
11:30 – 11:45	Break
11:45 – 13:45	Creativity Round 2
13:45 – 14:15	Break
14:15 – 15:15	Creativity Round 3
15:15 – 15:30	Wrap-up and next steps

The following tools will be used for online interaction: Tele-conferencing platform ([GoToMeeting](#)) and Online participation tool ([Miro](#)).

This [video](#) shows a little of how previous workshops happened.

Register now writing to ideacademy@prefet.eu and letting us know the date of the workshop you are interested to take part in!
