

WHAT WE DO

TuscanyX.0 supports Tuscany's public and private sectors in their digital and green transformations, through specific, targeted services.

IL NOSTRO MODELLO

The process used by **Tuscany X.0** is based on a LEAN method that through a very definite procedure will provide real benefits to businesses and public bodies.

Through **Access Points**, a sort of help desks, the applications will be forwarded to System Integrators who will review the requirements and will point to the most suitable partners, or **Providers**, who can meet their needs.

A veritable team effort to make Tuscany ever more competitive in meeting the challenges of digital transformation.

WHO WE ARE

Tuscany X.0 is one of the 13 Italian projects that won the European tender for the development of a European Digital Innovation Hub aimed at technology transfer through advanced digital technology, Artificial Intelligence, High Performance Computing and Digital Security.

Small- and medium-size companies and public bodies will have the opportunity to use easy, accessible and locally-sourced technology and services.

Namely, **Tuscany X.0** is a centre targeted to Tuscany-based companies that will help create and strengthen a network of EDIHs and other, similar stakeholders.

Tuscany X.0 will help monitor the level of digital maturity of businesses through a Digital Maturity Assessment (DMA).

THE PARTNERS

The coordination of the project is entrusted to **Polo Tecnologico di Navacchio**, with the technical coordination of **GATE 4.0, the Tuscan Regional HighTech Advanced Manufacturing District**.

- Digital Innovation Hub Toscana di Confindustria
- Eurosportello Confesercenti
- EDI.it di Confcommercio
- ARTES 4.0
- CNR
